KEAN CHANTHY

Apply for: Developer

SUMMARY

Motivated and detail-oriented recent graduate seeking an entry-level position in a dynamic organization where I can apply my academic knowledge, develop new skills, and contribute to team success. Eager to learn, grow, and take on meaningful responsibilities that align with long-term career goals.

EDUCATION

2022-Present

Studying at Royal University of Phnom Penh, Bachelor Student in IT (Year 4, Semester II)

Major: Software Development

Programming Languages & Technologies: C, C++, Java, HTML, CSS, JavaScript, React.js, Node.js, C#, PHP Laravel, Flutter, MySQL, Microsoft SQL Server, MongoDB.

PROJECTS

Product Store Application

Tech Stack: C#, .NET (WinForms), SQL Server

- Developed a desktop-based product store application with features for product management, order processing, and reporting.
- Built a RESTful API using ASP.NET Core for secure client server communication.

Food Delivery System (Click2Eat)

Tech Stack: React (Vite), Node.js (Express), MongoDB

- Deployment: Backend microservice on Render, Frontend on Vercel & GitHub.
- Built a full-stack web application for online food ordering and delivery management.
- Implemented JWT-based authentication and role-based access control.
- Developed RESTful APIs for managing orders, menus, and users. Designed a responsive and dynamic frontend using React and Vite for a modern UI experience.
- Integrated MongoDB for efficient data storage.

PERSONAL TRAITS

- Friendly and approachable
- Strong interpersonal skills
- Able to prioritize tasks
- Encouraging and supportive
- Quick learner and Open-mind
- Customer-oriented
